## FULLSTACK SOFTWARE DEVELOPER WITH EXPERIENCE IN HOSPITALITY AND ADVANCED STUDIES IN DESIGN.

Expert problem solver in time sensitive and high-pressure situations where multi-tasking, asking for help, and being self-sufficient become necessary for successful outcomes. Coupled with outside-of-the-box design approaches to implementation of visual, structural, and/or spacial elements in a given problem statement. Experiences that yield a well-rounded individual that will bring creativity, courtesy, and efficiency to the work environment.
